Occlusion in Small Rooms

Section 1 — Remember the evidence

Research finding 1.1: occlusion links observation to context.

Research finding 1.2: occlusion links observation to context.

Research finding 1.3: occlusion links observation to context.

Research finding 1.4: occlusion links observation to context.

Research finding 1.5: occlusion links observation to context.

Research finding 1.6: occlusion links observation to context.

Research finding 1.7: occlusion links observation to context.

Research finding 1.8: occlusion links observation to context.

Research finding 1.9: occlusion links observation to context.

Research finding 1.10: occlusion links observation to context.

Research finding 1.11: occlusion links observation to context.

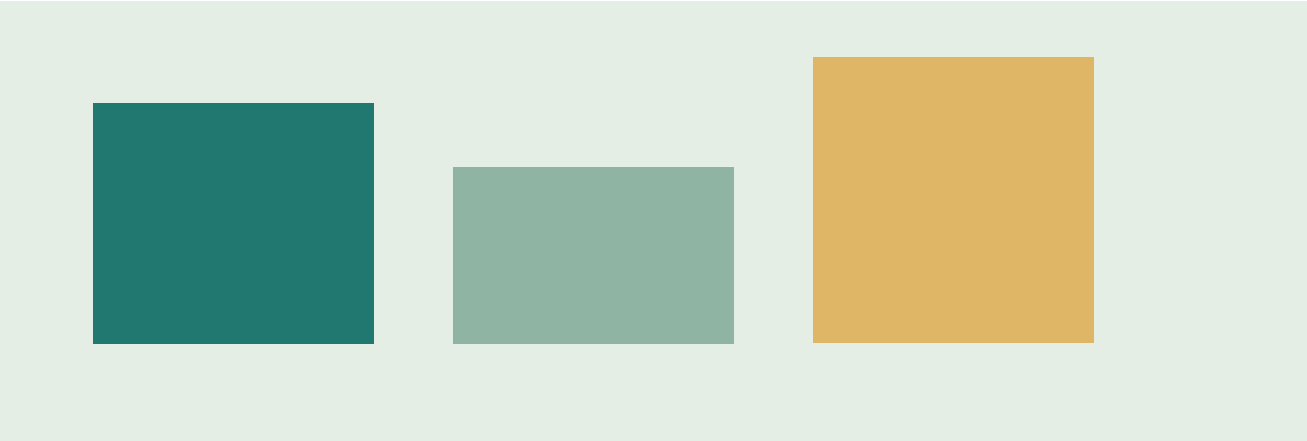

Figure 1. Capture this chart and return to its source.

This PDF is synthetic test material, not a scientific publication.

Select text, search for occlusion, and compare two pages side by side.

Occlusion in Small Rooms

Section 2 — Remember the evidence

Research finding 2.1: occlusion links observation to context.
Research finding 2.2: occlusion links observation to context.
Research finding 2.3: occlusion links observation to context.
Research finding 2.4: occlusion links observation to context.
Research finding 2.5: occlusion links observation to context.
Research finding 2.6: occlusion links observation to context.
Research finding 2.7: occlusion links observation to context.
Research finding 2.8: occlusion links observation to context.
Research finding 2.9: occlusion links observation to context.
Research finding 2.10: occlusion links observation to context.
Research finding 2.11: occlusion links observation to context.

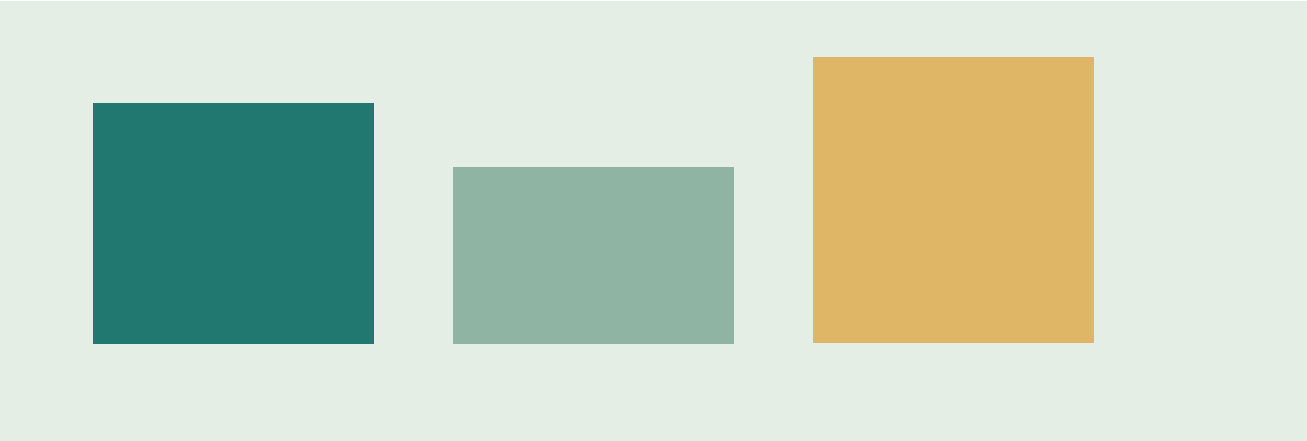

Figure 2. Capture this chart and return to its source.

This PDF is synthetic test material, not a scientific publication.

Select text, search for occlusion, and compare two pages side by side.

Occlusion in Small Rooms

Section 3 — Remember the evidence

Research finding 3.1: occlusion links observation to context.

Research finding 3.2: occlusion links observation to context.

Research finding 3.3: occlusion links observation to context.

Research finding 3.4: occlusion links observation to context.

Research finding 3.5: occlusion links observation to context.

Research finding 3.6: occlusion links observation to context.

Research finding 3.7: occlusion links observation to context.

Research finding 3.8: occlusion links observation to context.

Research finding 3.9: occlusion links observation to context.

Research finding 3.10: occlusion links observation to context.

Research finding 3.11: occlusion links observation to context.

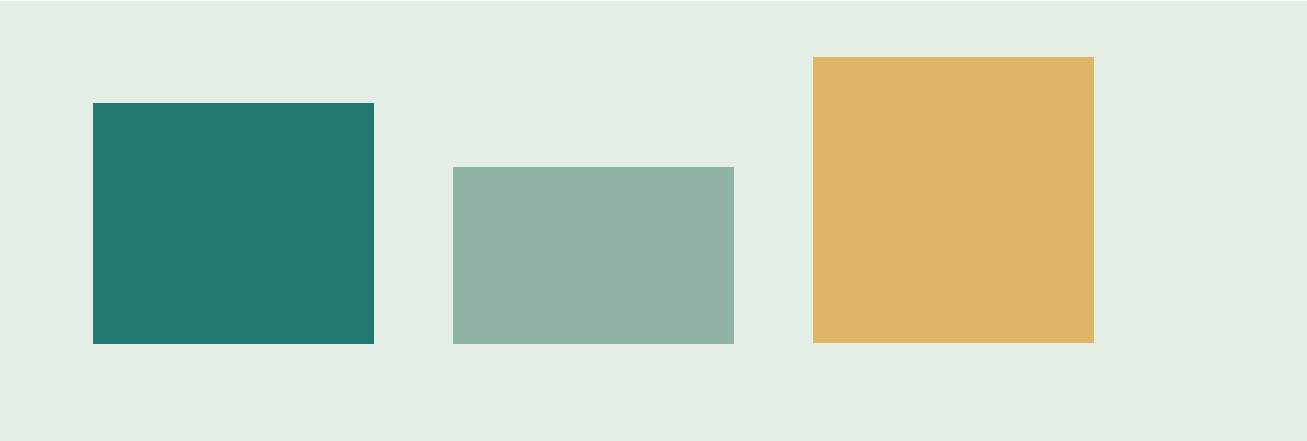

Figure 3. Capture this chart and return to its source.

This PDF is synthetic test material, not a scientific publication.

Select text, search for occlusion, and compare two pages side by side.
